Name/Firm:- E-LEARNING ERP Solutions

Greetings

Dear,

I am pleased to introduce myself and my team. We are excited to get to work on your new mobile and desktop application, and we want to make sure you're satisfied with our proposal and have a full understanding of what to expect in this lengthy procedure. Creating a mobile and desktop application is exciting, and my team is fully capable of doing something unique that will help grow your business.

The following proposal will set a project road map from start to finish. You will have a complete understanding of the process and timeline for completion. And if you have any questions or concerns, please contact us.

Sincerely,
Rajat Kumar Singh

What to Expect

Mobile app development is serious business. It takes time and patience to create something that works for you and is free of bugs and other issues. Updates are required, but it's important to start with a sound foundation. At Makeitappin, we believe in a thorough approach that provides our clients with as much engagement as they valid request.

Research and outreach

A large part of the work does is behind the scenes. There will be times when we don't communicate with Client for weeks, but that's only because we're intimately involved in the development phase. However, before any of that begins, we need to make a checklist of everything you want in your new mobile and desktop application.
We will gather information about your company and how it works. We will figure out who your customers are and how we can attract more through your new app. Audience engagement, research, and branding are key in app development, and we will conduct focus groups to find out why people choose E-learning ERP solution.

Timeline

We estimates that it will take 2-4 months to complete your new mobile and desktop application. Upon signing the agreement, we can begin immediately. Here's what to expect

Budget

Half amount of project amount (i.e. 50%) is due upon signing the agreement. The remaining 30% amount of project must be paid after first submission and remaining 20% amount of project be paid after project release.

ONGOING EXPENSES: we provides necessary updates.

Description

1. Based on all of the talents that are needed and all of the work and process that goes into building an app, I created below, a cost estimate on building apps.
